

## *Destiny: An Intimate Journey*

**Dr. Bradley Stuart** is Yada's founding director and is an ordained minister of the Gospel who has served the Body of Christ in many nations since 1984.

**His Call to Intercession** In 1988, he heard God calling him to teach the Body about intercession, which led him to write a book entitled *A Call to Intercession*. This biblical foundation teaching covered the following topics: Introducing Intercession, Travail, Warfare, Fasting, Group Intercession, and The Intercessor's Character. His first book is no longer in print but this anointed information is covered fully in the Yada School courses. Bradley is committed to a local church in Stafford Virginia USA, which serves as his spiritual covering and home base. He conducts teachings in various parts of the world. Bradley networks with various prayer ministries internationally. He labored for four years with Shalom Ministries, a South African ministry headed by Angus Buchan, leading citywide intercessory teams as advance preparation for their evangelistic campaigns.

**His Life and Testimony** Bradley's entire life is a testimony to the power of prayer. He was miraculously sustained through many complications during and after his birth until he was given only two hours to live. This led his praying family to cry out to God to spare his life for His use, which He did. Bradley overcame many battles while attending a cerebral palsy school for six years. When he began attending a normal school he was continually ridiculed for his slow movements and speech due to his muscular coordination problem that the Lord has continued to heal to the amazement of many.

In 1982, he totally dedicated his life to Jesus. The Lord miraculously lengthened one leg, which allowed him to wear normal shoes. He then heard the Lord calling him to serve Him. His response was: 'Here I am Lord, send me. I don't have much ability, but I give you my availability.' He completed his high school studies and for the next 18 months served in his local church as a youth leader, Sunday school teacher and home fellowship leader while studying by correspondence for a theological diploma. God then called him to move out in faith and make his needs known to Him alone in prayer. His relationship and faith grew as God continued showing him the power of prayer. In 1986 while on a mission in South Africa, his group was attacked by 16,000 rebellious youths and, as they prayed, God sent a huge angel to rescue them from an apparently hopeless situation. That same year, Bradley completed his theological diploma and he was ordained a year later. In 2002 Bradley got his doctorate in theology.
